

2018 AASHTO Committee on Right of Way, Utilities, and Outdoor Advertising Control

— AND THE —

National Alliance of Highway Beautification Agencies Conference

Sunday, April 22–Thursday, April 26
Sheraton Inner Harbor Hotel
Baltimore, Maryland

AASHTO

2018 CRUO Conference, Baltimore

Utility Coordination Committee

- Develop guidelines for the prequalification of utility engineering consultant to provide utility coordination service.
- Develop guidelines for utility coordination on design build projects.
- Develop guidelines for utility coordination scope of work.
- Develop guidelines for when a project requires utility engineer to get involved.
- Develop a national certificate program for utility coordination
- Develop 1:45 minute webinar on Utility Coordination as part of UE

Utility Coordination Committee

- LONG TERM: Develop utility engineering manual to be published by ASCE in future, which could also be used as study material for introducing utility engineering as a graduate course.
- Develop course material and course for delivery at university graduate level (40 hour short course)
- Develop Guidelines for handling utility issues on alternate delivery projects, Design-Build, PPP, CM at risk, etc.
- Develop fun project that students/younger members can have included in annual Pipeline Conference re Coordination aspects of a project.

Discussion Topics

- Rebranding Utility coordination
- Coordinate developing standards with AASHTO, TRB Standing Committee on Utilities and FHWA
