

2016 Awards of Excellence

NAHBA Awards of Excellence is an annual awards program developed by NAHBA to honor programs that excel in the outdoor advertising control program. There are three (3) categories for submission: *The Chairman's Award in Outdoor Advertising Control*; *Streamlining and Integration in Outdoor Advertising Control*; and *Innovations in Outdoor Advertising Control*;

The Chairman's Award in Outdoor Advertising Control

Brooks Glasnapp, Iowa Department of Transportation

Brooks has been involved with Highway Beautification at the Iowa DOT for over 26th years and is currently the Secretary/ Treasurer for NAHBA. He has been and continues to be a great resource of information and best practices for the surrounding states in the Midwest all year round. Whether it is the bonus program, ISTEPA, MAP 21, CMS lighting issues, or even historical information, he is quick to share valuable insights in a timely manner.

Process Improvement Award

Texas Department of Transportation

TxDOT's launched a new online interactive mapping system and demonstrated the successful integration of technology that has led to a broader transparency, improved efficiency, and increased effective control of signs within the state of Texas

Technical Innovation Award

Pennsylvania Department of Transportation

Nominated by the FHWA Pennsylvania Division to recognize PennDOT's efforts to "lead the way" in Outdoor Advertising Program Innovations. The Highway Beautification Management System (HBMS) is the Pennsylvania Department of Transportation's recently developed web-based, field tested state-of-the-art interactive data base and management tool for the effective control of outdoor advertising devices and junk yards.
